

October 2008 changes in Multilex Drug Dictionary

Summary of Changes

In the October 2008 Multilex Drug Dictionary, there are behind-the-scenes changes which may require you to reauthorise. The drugs involved are listed below.

Once the October dictionary is installed, when you come to issue any of these drugs from a repeat master, you may be asked to reauthorise before issuing. You will in all probability not then see any difference between the previous drug name and the re-authorised one but the change will have been made.

Formulation And Qualifier Descriptor Changes

The following products will have their names restructured in Multilex DDF during September 2008 for inclusion in the October 2008 datacut.

While the names may appear to be displayed identically, they may be presented for re-authorising in repeat prescriptions.

Multilex DDF products with the following brand descriptors will be amended:

'CR', 'LA', 'LS', 'M', 'MR', 'SR', and 'XL'

In a few cases, it will be necessary to suppress the existing record and create a new record. This latter group of products will use the 'Replacement Record' functionality within Multilex DDF.

The following products will be affected:

Formulation of CR Tablets

CARAMET CR tablets 25mg+100mg [TEVA]

CARAMET CR tablets 50mg+200mg [TEVA]

EPIVAL CR tablets 300mg [CHANELLE]

EPIVAL CR tablets 500mg [CHANELLE]

LITAREX CR tablets 564mg [ACTAVIS]

SODIUM VALPROATE CR tablets 300mg [HILLCROSS]

SODIUM VALPROATE CR tablets 500mg [HILLCROSS]

Formulation of LA Capsules

ISOSORBIDE MONONITRATE LA capsules 25mg [HILLCROSS]

ISOSORBIDE MONONITRATE LA capsules 50mg [HILLCROSS]

TILDIEM LA capsules 200mg [SANOFI S]

TILDIEM LA capsules 300mg [SANOFI S]

Formulation of LS Tablets

CAPOZIDE LS tablets [SQUIBB]

FRUMIL LS tablets 20mg + 2.5mg [HELIOS]

KALSPARE LS tablets [DOMINION]

TENORMIN LS tablets 50mg [ASTRAZENECA]

Formulation of M Tablets

TRIPTAFEN M tablets 2mg + 10mg [GOLDSHIELD]

Formulation of MR Tablets

ARBIL MR tablets 200mg [RANBAXY]

ARBIL MR tablets 400mg [RANBAXY]

ASACOL MR tablets 400mg [PROCT&GAMB]

ASACOL MR tablets 800mg [PROCT&GAMB]

BACTICLOR MR tablets 375mg [RANBAXY]

CALCHAN MR tablets 10mg [RANBAXY]

CALCHAN MR tablets 20mg [RANBAXY]

CORDILOX MR tablets 240mg [IVAX]

MESALAZINE MR tablets 400mg [IVAX]

MESREN MR tablets 400mg [IVAX]

RANVERA MR tablets 240mg [RANBAXY]

VERAPAMIL HYDROCHLORIDE MR tablets 240mg [IVAX]

VERAPRESS MR tablets 240mg [ACTAVIS]

VERAPRESS MR tablets 240mg [TEVA]

Formulation of SR Capsules

ADIZEM SR capsules 120mg [NAPPPHARM]
